# THE COLLECTION

A palette of contemporary shades, from warming mid-oaks and Scandinavian pines, to the elegance of parquet in classic oak. And feel the incredible 'natural wood textured' surface of the Natural Oak and Plank collections, where the crafted top surface matches every detail of the pattern, re-creating the exact sensation of the original material, in a practical, durable finish.

# NATURAL PLANK

A beautiful collection of crafted wood plank designs, combining abundant character with perfect practicality. Choose from an array of mid-oaks and contemporary grey tones, or evoke the sensation of a sun-drenched beach house with Cove to create a lighter, brighter space. The incredible embossed 'natural wood' surface, combined with great practicality, means it's just a case of choosing your favourite shade!

# NATURAL OAK

For countless centuries, oak has been the favoured material of the traditional master craftsman. Our Natural Oak collection captures the finest detail of the craftsman's art with fine grain 'real-wood texture' and gorgeous bevel to enhance the plank, and all with a resilient surface that's perfectly suited for modern living.

# PARQUET OAK

Our elegant wood parquet design replicates the Natural Oak collection in miniature scale. The six 'mini-plank' stave decors re-create the classic parquet patterns, from retro-inspired chevrons to classical basket-weaves. Combine with full size Natural Oak planks to form borders and decorative features.

## SELECTED WOODS

An eclectic mix of reclaimed pine and oak designs in a contemporary grey and mid-toned palette. Recreating the fabulous looks of the original materials, these selected woods are immensely practical too. Incredibly durable yet requiring none of the sanding, sealing or waxing or real wood, and requiring relatively little maintenance, it's the closest thing there is to a 'fit and forget' floor!

## YOUR QUESTIONS ANSWERED

### Are Harvey Maria floors suitable for bathrooms?

Yes. Our floors are completely waterproof and slip resistant, so they are perfect for bathrooms. The tiles butt up tightly together and the recommended adhesive creates a watertight bond.

### Are they compatible with underfloor heating?

All Harvey Maria floors are suitable for use with underfloor heating. Simply follow our installation guidelines along with those of the heating system manufacturer, and don't forget to choose high temperature adhesive.

### How do I see a sample?

Visit your nearest MSeries retailer to see their full display and pick up a sample, or order via our online sampling service. Samples are cut from larger planks and there can be variation in shade across the plank, particularly for rustic patterns. Shade can also vary from batch to batch.

### Are Harvey Maria floors guaranteed?

Yes, all Harvey Maria floors are supplied with a warranty of up to 25 years. Ask your retailer for more information and check the full warranty terms and conditions on our website.

### Health, well-being & sustainability?

As well as noise and cosiness benefits, MSeries is certified as exceeding the Eurofins Indoor Air Quality Gold standard, making your indoor environment safer and healthier too. And its green credentials means compliance with the building sustainability protocols, BREEAM and LEED.

Cleaning Harvey Maria floors needs little water and no harmful chemicals and our production plant is certified to ISO-14001, meaning a neutral impact on the local environment too.

For any other help or information, please don't hesitate to get in touch.
